Expectations become reality.

The new AXION 8 CMATIC.

Expectations become reality?

Challenge accepted. With the new AXION 8 CMATIC.

Farmers and contractors face tough challenges year after year and expect maximum reliability and profitability from their tractors in the premium segment.

The new AXION 8.240, 8.270 and 8.290 models with up to 310 hp are more than up to the job – combining a high level of investment security with the latest operator assistance systems and clever digital solutions.

Our local dealerships provide excellent service support and reliable parts supply. So the AXION 8 CMATIC is always ready with the right answer.

Efficient Performance

Achieve more with less?

Challenge accepted.
With the new AXION 8 CMATIC and its smart power concept.

The AXION 8 with the CMATIC continuously variable transmission and the CEMOS assistance system increases operator productivity. Up to 313 hp with DYNAMIC POWER ensures outstanding performance for demanding tasks.

Maximum productivity.

- Long wheelbase and 50/50 weight distribution for maximum tractive performance and optimal manoeuvrability.
- The CEMOS assistance system significantly reduces fuel consumption by calculating the optimum ballast and tyre pressure for the job. Automatic engine droop adjusts the engine speed dynamically, which further reduces consumption.
- CMATIC continuously variable transmission – precisely matched to the new CLAAS drive controller – for smooth power transmission

Real-time monitoring of performance data.
connect.claas.com

▲ Increased hydraulic output with 3/4-inch couplings and oil flow of up to 205 l/min for fuel-efficient work with demanding implements.

240 to 313 hp with DYNAMIC POWER for demanding applications.

▲ DYNAMIC POWER intelligently distributes the available power to all consumers and automatically reduces it in partial-load operation. So you get just the amount of power you need to work efficiently.

▲ In the field, during PTO work or on the road, the proven AXION drivetrain delivers optimum efficiency.

Uptime & Profitability

Greater operational reliability with optimised total costs?

Challenge accepted. With the new AXION 8 CMATIC – it really earns its keep.

AXION 8 CMATIC: maximum performance meets uncompromising reliability.

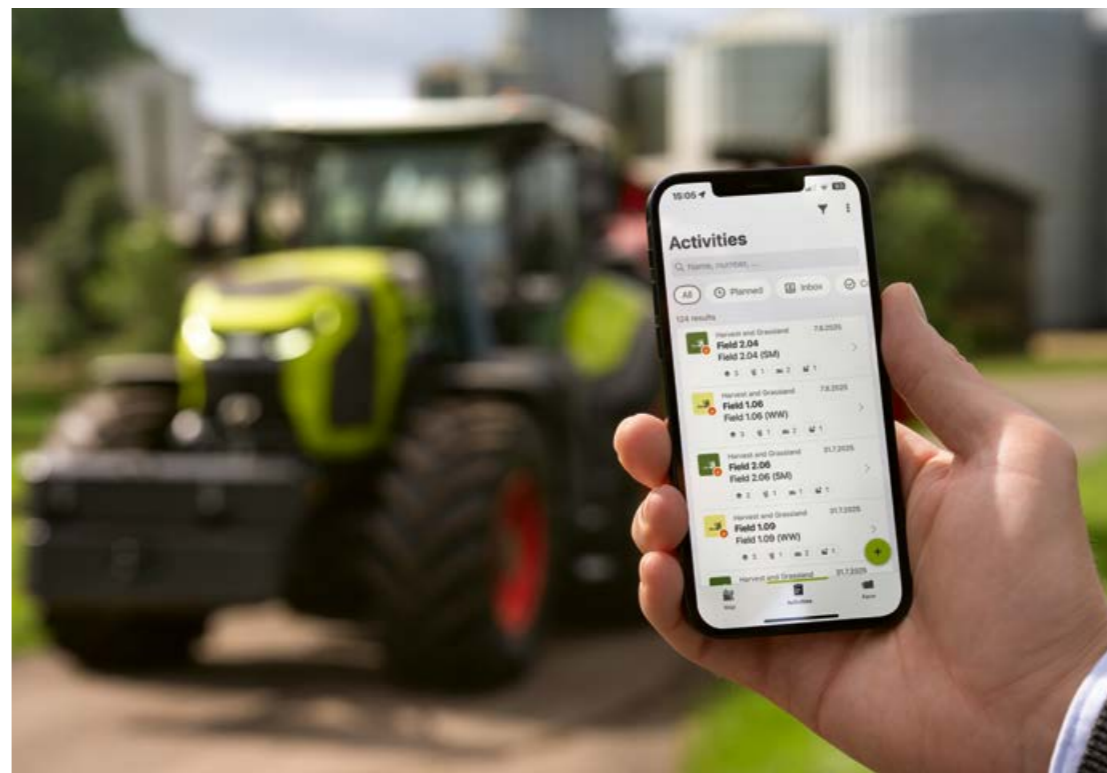

Farmers and contractors need tractors that are reliable as well as powerful and versatile to meet the tough challenges they face. The new AXION 8 CMATIC was developed specifically to address these requirements. Manufactured in one of the most cutting-edge tractor factories in the world, it demonstrates impressive reliability and durability.

▲ Maintenance intervals have been reduced and extended to 750 operating hours. The 463-litre diesel tank enables long working days without frequent refuelling stops.

Higher operational reliability.

- Transparent cost planning through CLAAS MAXI CARE with protection for up to 8000 operating hours or eight year
- Less wear and more safety on the road with self-protecting drivetrain and automatic stretch brakes
- High reliability day-in, day-out – backed by over 20 years' experience in the 200 to 300 hp segment

▲ Plan, monitor and document your tasks in the office or on the move with online task management from CLAAS connect. Your dealership is happy to help with all digital matters.

Operator Centricity

Place the operator centre stage?

Challenge accepted. With the new AXION 8 CMATIC tailored to the operator.

The AXION 8 CMATIC is geared towards the operator and offers an exceptionally comfortable and productive working environment. The particularly quiet and spacious cab with improved suspension, exclusive Premium seat with massage function and ergonomic footrest are designed for relaxed work, even on long days.

A digital camera system with up to five cameras, including wide-angle function and optimised lighting package, improves safety and visibility around the tractor.

Spacious and quiet enough for complete concentration.

▼ The customisable CEBIS connect terminals and ergonomic CMOTION multifunction control lever give you precise and intuitive control of all key functions.

Comfortable, productive and safe

- Wide steps with LED-lit aluminium treads for safer entry and exit.
- Premium workplace with large, noise-reduced cab (67 dB) and plenty of well-designed storage compartments
- Optimised cab and front axle suspension for innovative ride comfort and stable handling
- Premium operator's seat swivels through 50° and features massage function and ergonomic footrest to help you stay relaxed even on long working days

- Option to create customised views in the CEBIS connect terminals and up to 30 storable hydraulic and ISOBUS functions via the ELECTROPILOT joystick
- Comfortable control of the front and rear linkage with haptic confirmation of stored positions
- Easily accessible maintenance points and quick-start button for the electronics located on the step save considerable time

▼ Vibration damping on the front and rear mounting points perfectly matched to the new cab and seat suspension for a safe and comfortable ride.

Even more digital options?

Challenge accepted. The future starts right now with the new AXION 8 CMATIC.

Farms with high workloads and complex workflows must use their machines efficiently and keep track of all operations. The AXION 8 CMATIC helps by boosting productivity and at the same time reducing the operator's workload.

Modern assistance systems, automation and connectivity make it a strong and dependable partner for farm managers and operators – from planning to execution in the field.

▼ Remote Display View provides operators with remote assistance via the tractor display.

Full control and simple management.

- More relaxed operation with online documentation and reference track management in CLAAS connect
- The CEMOS operator assistance system offers optimal operator support for maximum efficiency
- Running in the background, automatic engine droop finds the optimal engine speed for any application.

Intelligent assistance.
Comprehensive automation.

▼ The two new CEBIS connect terminals offer you intuitive and straightforward control of tractor settings, ISOBUS implements, track guidance and documentation.

▼ You can transfer tasks online straight to the customisable terminals via CLAAS connect.

Be the best in the field?

Challenge accepted. With an intelligently connected Seed Green fleet.

The soil is the most valuable capital in arable farming. We must treat it as gently as possible to continue producing top-quality harvests in the future.

Some machines only feel good when they are being pushed to their limits. Doing what they are built to do. Like the LEXION, JAGUAR, XERION – and of course the new AXION. With the new AXION 8, three formidable sparring partners have now joined them on the field. The versatile AXION 8.240, 8.270 and 8.290 tractors are the latest additions to the AXION family. Welcome to the Seed Green fleet!

For decades CLAAS has been supplying farming professionals throughout the world with high-performance machines tailored to their field activities which facilitate the smooth running of all operations. The intelligently connected machines and systems enable farmers to be the best in their field.
